

## Solving a Mystery

Use this as a template and copy it into your middle section of your notebook:

1. What is the mystery?
2. Victim - name, what you know about him/her
3. Suspects - List names and who they are
4. Suspects' Alibis
5. Outline what happened

Figure out a strategy to use to solve the mystery (read the mystery again and look very closely at every detail, take each suspect's alibi and examine it closely to find any discrepancies, draw a picture, work backwards from the end to the beginning, etc.)
